## Product's PLUS

The plates tilt 10 mm towards the front of the appliance, optimising flow of fat into the drip drawer.

Plate welded to hob, thus guaranteeing a wider cooking zone and preventing the accumulation of dirt.

Multiple burners underneath the plate ensure uniform heat distribution.

Thanks to the IPX5 water jet ingress protection rating, awarded after passing specific tests, knobs and knob bezels can be washed at the end of the working day without affecting performance or safety.
